Let's Go Robotics Relocates to Larger Facility
Company doubles production and engineering area

Carlsbad, Calif. – November 11, 2011 – [Let's Go Robotics](http://www.letsgorobotics.com) announced today that it has relocated its engineering, laboratory and production operations to a new and significantly larger facility. This move is completed on November 11, 2011.

Let's Go Robotics is an industry leader in implementing design applications for the Life Science Industry. "The new building doubles our size, giving us more room to accommodate additional engineers, expand our labs and build our robotic devices," said Brian L. Ganz, Let's Go Robotics President and CEO. "The new facility also features a customer training center focused on Cognex imaging, servo motor controls and Labview software."

The company has scheduled an open house in early February 2012 to coincide with the [Society for Laboratory Automation & Screening \(SLAS\) conference & exhibition](#) in San Diego. During the open house, Let's Go Robotics will present a scholarship to a Carlsbad High School student planning to study Engineering.

"As we celebrate our company's expansion, we want to share our enthusiasm for Robotics by encouraging future engineers," said Ganz.

The new **Let's Go Robotics** address is 5441 Avenida Encinas, Suite A, Carlsbad CA 92008. Phone and fax numbers remain the same: 760.438.0210 (phone) and 760.438.0215 (fax).

Invitations to the open house will be sent out to select customers and partners. They can also be obtained by contacting the company at 760.438.0210.

About Let's Go Robotics

Let's Go Robotics, Inc. specializes in Life Sciences automation for our future. The LGR team focuses on system integration, custom engineering, and standard product development, leveraging our extensive experience in engineering and robotics. For more information call 760.438.0210, e-mail info@letsgorobotics.com, or visit www.letsgorobotics.com.
