FOR IMMEDIATE RELEASE**

Let's Go Robotics becomes an Alliance Partner with National Instruments

June 8th, 2011-San Diego, CA- Let's Go Robotics, Inc. (LGR, Carlsbad, CA, USA) is pleased to announce it has signed an agreement with National Instruments (NI, USA) to become a certified Alliance Partner. Let's Go Robotics founded in 2005 is an industry leader in implementing design applications to the Life Science Industry.

"Becoming a National Instrument Alliance Partner is a great opportunity to deliver advanced LabVIEW software solutions to our customers," states Brian L. Ganz, President of LGR.

"The National Instruments Alliance Partner program is a worldwide network of more than 600 consultants, system integrators, developers, channel partners, and industry experts who partner with NI to provide complete, high-quality virtual instrumentation solutions to customers" states National Instruments.

Let's Go Robotics will receive "compelling technical, marketing, and sales benefits to help build solid relationships and grow as an Alliance Partner." LGR has trained and degreed engineers with LabVIEW experience to help assist our customers with a wide range of software projects.

About National Instruments

"National Instruments transforms the way engineers and scientists around the world design, prototype, and deploy systems for test, control, and embedded design applications." For more information visit www.ni.com.

About Let's Go Robotics, Inc.

Let's Go Robotics, Inc. specializes in Life Sciences automation for the future. The LGR team focuses on system integration, custom engineering, and standard product development, leveraging our extensive experience in engineering and robotics.
